sinbo

Smart Choice...

Index

Dear Friends of Sinbo,

Sinbo, has managed to integrate the traditional values in this land and universal values for more than 18 years. Despite of being young in age, the company has become one the most important centers in the production of small household appliances (SHA). Currently exporting to over 80 countries, Sinbo will become a "World Brand" exporting all over the world in the near future.

Sinbo, has the professional knowledge, skills and equipment in international standards in the fields of production, sales and marketing; and as an innovative, self-confident, entrepreneur company, preserves the leadership in the sector of Small Houshould Appliances in Turkey

The company is making a firm progress in order to make its name known in the world markets specified as the targets and achieving the leadership obtained in Turkey in such markets as well and approaching this goal a bit more every day.

Our Sinbo voyage, built on an accumulation of 30-years, has reached today at the end of 18 years a point where we design and produce under our own brand for the world in the huge modern facilities of an area of 65 000 m2. By using the "Scale Economy" in every area, the company has become a competitor to the companies in the target markets, and –leaders of the market.

Sinbo, having maintained its principle of appropriate and high-quality product policy, and his idea of the smart choice up to now and continue to do so and present to the consumer and thus aims to perfection.

Sinbo, with its production capacity of 40 000 units/day as well as with the products that it has let produced in factories in many countries of the world, procieeds on its way to become a true global power. Moreover, thanks to Turquality, the company has obtained advantages, which local and global competitors in the world do not have. This has reinforced our belief in achieving our goal is even more.

Sinbo uses the motto **"Smart Choice"** both in Turkey and in its target markets. Our goal is to act in line with our vision and mission, like until now also hereafter, and coming the points that we want to reach, thus carrying the TURKISH PRODUCTS and QUALITY to a significant point in the world market.

All of us, as the individuals in "Sinbo Family", have taken over important and meaningful tasks in delivering the "World of Sinbo" to the final consumer. As Sinbo Family, we will proceed hand to hand, arm in arm, shoulder to shoulder to make Sinbo a "World Brand".

My love and regards to all "Friends of Sinbo"…

Mehmet DEMIR
Chairman of the Board of Directors

Sinbo Advantages

Quality

High material quality of Sinbo products guarantee long service life and ensure that you joy many years have at their reliable kitchen helpers.

Innovation

More Than a Juice Extractor

Instead of biting into an apple or sauteing some vegetables for a meal, juicing offers an alternative way to eat these healthy foods. Juicing involves grinding fruits and vegetables through a juicing machine and extracting only the food's liquids.

Dishwasher-safe jar fits with your food processor and can be used for blending, stirring and crushing up different ingredients.

This sieve, part of your juicer, the fibres of fruit and vegetables. The sieve is easy to detach and can be cleaned with a sponge.

You can use coffee grinder accessory for many thing like, nuts and powdered sugar.

This juicer jug fits your juicer and can be used to collect fresh juice before pouring it out.

Extra wide feeding mouth for easily juicing whole fruits and vegetables.

Blender and coffee grinder accessory is sturdy and unbreakable glass is important in terms of health.

Extra Wide Feeding Mouth

Multi Function Machine Head

Sew 2 lines at once or create multi-shaped lines. It's stylish design and durability makes it an ideal first sewing machine. It comes with threader, twin needle and bobbin pin for winding, etc.

Different Modes for Sewing

Sewing gets even more easy and convenient with this multifunction sewing machine! This sewing machine comes with an amazing set of 24 switch and adjustable speed for your sewing convenience.

SVC 3470

Powerful Cyclone Vacuum Cleaner Performans

Sinbo cyclone technology vacuum cleaner effortlessly cleans your floors and carpets. The advanced dust container is easy to empty and helps avoiding dust clouds.

Sinbo HEPA filter effectively filters out bacteria and viruses. The antibacterial coating eliminates germs and mould.

Easy to use, sturdy body with a comfortable to use. There is the possibility to set their own according to your height.

Cyclone vacuum cleaner is the result of some variations in traditional vacuum cleaners. Cyclone vacuum cleaners work by sending air stream through cylinders.

Most protected dust tank.You can use 2 way to open and clean it.

You can move around wherever you want without dusting.

Hanging place of broom handle back side and can use cord reel button with your feet.

Power cord length is over 4.5m and coming with cord reel function.

Mechanical suction power adjustment slider.

Detailed cleaning accessories for sofa, carpet sides and pet hair removal.

Cyclone Vacuum Cleaner

Cyclone Technology Benefits

Cyclonic vacuum cleaner is the result of some variations in traditional vacuum cleaners. Cyclonic vacuum cleaners work by sending air stream through cylinders. The air stream goes around in a spiral that traps the particles. In these types of vacuum cleaners the dirt and other particles are accumulated at the bottom of the cylinder. You may also tend to purchase the vacuum cleaner having the same technology for maximum performance.

HEPA Filter For Clean Air

Sinbo HEPA filter effectively filters out bacteria and viruses. The antibacterial coating eliminates germs and mould.

SFH 3328

Healty, Eco & Durable Infrared Heater

Infrared heaters create a heat that is very similar to the sun. Infrared light isn't visible because it's beyond the spectrum we see. That invisible light gets absorbed by our skin, clothes and other objects, which is how things around an infrared heater warm up.

Infrared heaters will still provide the same strong, penetrating heat no matter how long it's been after being turned off.
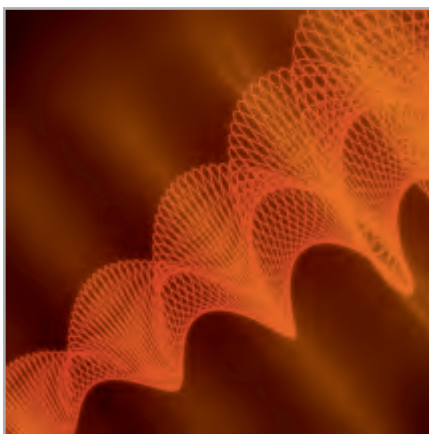

Ellipsoid with wire wrapping occurs and each side dissipates more heat.

With the overthrow of the security system will help to prevent possible accidents.

In the above systems the heat is reduced and heating efficiency is reduced. With infrared light can provide heat for heating the desired direction.

Set the desired temperature with the thermostat knob and you'll save.

Heat resistant and flame retardant cables and safe to use.

Actual room infrared heater with thermostat your system does not work unnecessarily.

Wall hangings can save space with accessories.

Electricity-saving design is environmentally friendly because it consumes.

Infrared Heater

SFH-3320 / 3323 / 3325 / 3328

- Healthy, economical and durable heater
- Safety using with overturn detection switch.
- Heats the environment in a short time
- Does not cause headaches since it does not consume oxygene
- Does not dry air, does not cause bad odors since it does not burn particles in the air
- Thermostat controlled two heat settings
- Can be mounted on wall, ceiling easily or operated on its portable feet
- 2800W / 2500W / 2200W / 2000W

Notes

TURQUALITY ®, the world's first and only government-backed branding program. Nowadays, with increasingly intense competition and changing consumption patterns, companies that want to take part in the international arena more value and meaning more market share are encouraged to create strong brands.

TURQUALITY ® Program Preliminary Investigation Study is conducted by the management consulting. In this study, all departments of the company are analyzed. After Preliminary Assessment Study report prepared by the Ministry of Economy is evaluated. Following the evaluation, the coverage may be denied the application, the company brand within the scope of the program or could be included **TURQUALITY** ® Program.

TURQUALITY ®
